

Welcome

This webinar is part of a series showcasing "Best Practices in Federal Section 508 Implementation".

Other presentations can be viewed at:

• A best practice is a policy, process, procedure or technique proven effective over time and repeatable by multiple agencies.

• A best practice is generalized so that diverse agencies may use it in their own organizations but specific enough to provide useful guidance and instruction.

• The CIO Council's Accessibility Community of Practice has published a library of 508 Best Practices at www.Section508.gov.
