## What is a “Place of Lodging”?

### Places of lodging include:

- Hotels
- Motels
- Inns
- Other facilities that offer sleeping rooms for short-term stays and meet certain conditions
  - **Short-term Stays:** Generally, 30 days or less
- Any entity that owns, operates, leases, or leases to such a place
  - **Exception:** Facilities that contain no more than **five** rooms for rent and where the proprietor actually resides

## 2010 ADA Standards for Places of Lodging

The [2010 ADA Standards for Accessible Design](#) include minimum requirements for newly constructed or altered facilities so that they are accessible to and usable by individuals with disabilities

### Minimum requirements:

- Accessible guest rooms with mobility and communication features dispersed among the different categories or classes of guest rooms available in the facility
- Amenities such as swimming pools and spas, exercise facilities, saunas and steam rooms, golf and miniature golf courses, boating and fishing facilities, and playgrounds for children must be accessible and usable by people with disabilities

5

5

## Reservation System Requirements

### Reservation systems for places of lodging must . . .

- Identify and describe accessible features
- Allow people with disabilities to make reservations during the same hours and in the same ways as those without disabilities
- Hold accessible guest rooms until all other rooms of that type have been rented
- Hold specifically reserved accessible guest rooms for the reserving customer and remove that room from the reservation system

**Third-Parties:** Places of lodging using third-party reservation services (i.e. travel agents and online booking websites) **must** make reasonable efforts to provide information on their accessible features and guest rooms to these third-parties.

6

6

## Staff Training

**Customer service staff should be trained to respond to specific questions about the accessible features of the facility, including . . .**

- Accessible routes to and through the facility;
- Details about the configuration of accessible guest rooms and bathrooms;
- The availability of accessibility equipment or features such as bath benches, or visual alarm and alert devices for guests who are deaf or hard of hearing; and
- The accessibility of common spaces such as meeting rooms, lounges, restaurants, swimming pools, or fitness centers.
